SKILLS

- I am an adept leader through numerous leadership opportunities accumulated through my years in Scouting.
- I am committed and enthusiastic, and always approach any task with a positive mental attitude.
- I remain focused and stay organised, and always ensure that I meet deadlines without fail.
- I am continually punctual and always reliable.
- I am a calm, logical thinker and always act responsibly and sensibly.
- I am an excellent team worker and excel at capitalising on everybody's talents to make the most effective team.

ACTIVITIES AND ACHIEVEMENTS

- I have been twice nominated for a BAFTA for my video game development work in the annual BAFTA awards. I was a finalist in the BAFTA Young Games Designers competition in 2017 in the 10-14 year-old category, and was then the youngest finalist in the 15-18 year-old category in 2018.
- Since 2008, I have been a member of the Scouting Organisation, which has been a fantastic opportunity for developing my communication and teamwork. In 2017 I received the Chief Scout Gold award. In 2016 I was the leader of a team participating in the annual national camping competition, and my team successfully placed 4th in Scotland. I was also selected to participate in the World Scout Jamboree in North America in 2019, being selected as one of the 36 participants from the Glasgow area out of over 70 applicants and for which I was appointed as one of the 4 patrol leaders. The Jamboree was a global collection of 45,000 scouts from over 150 countries, and it was a fantastic experience for developing as a person and learning how to make friends with people from any culture and background.
- In June 2017, I was fortunate to be offered work experience at one of Britain's top games design studio Blazing Griffin, where I enjoyed my first taste of the working environment by performing quality assurance and programming tasks.
- I have achieved both my bronze and silver Duke of Edinburgh's awards, all out-with school hours, and am now working towards achieving my gold award.
- In the 2017 Junior Awards Ceremony, I was awarded the Junior Dux award for academic excellence. In the 2018 Senior Awards, I received an award for 6 out of the 7 classes I took, and then in 2019 received an award for 5 out of 5 of the classes I took that year.
- I have begun my 4th year of assisting to run the school's code club, and that has massively helped develop my communication skills as I must explain complicated concepts effectively to the junior members of the school.
- I have also played trombone in the North Lanarkshire council music groups since 2012, and I now play in the 2 most senior groups. This involves annually performing to an audience of thousands at the Glasgow Royal Concert Hall.

- I participated in the UKMT Senior Mathematics Challenge in 2018 and won a Silver Award. I also took part in the West of Scotland Physics Education Group annual physics competition in 2018, and our team won second place.
